

LICHT- EN KLEURTHERAPIE

Dear reader,

It has been some time ago that you received a Newsletter. From now on we plan to send one every two months.

One of the new items is, that we will give you every time a 'dreamzone' on the body.

Peter Mandel has described many zones on the body, that work on specific issues and are ideal for self-help.

Everybody has sometimes little aches and pains, and mostly there is no need to go and visit a doctor or naturopath for this. Yet, we also like to do something about these discomforts (and in this way prevent it to become a real problem in a later stage). All you need is a bottle of the esoteric wild-herb-oil and your hands (for those of you that have a lightset, we will also give you the treatment color). The combination of the body zones and the esoteric herboil, promote dreams of a certain topics, and help to get more insights about the issues. It also helps to have a good, deep, rejuvenating sleep.

We advice you to keep this Newsletter, so you have a nice collection of treatment zones handy when the time comes you need it.

Before starting zone treatment, please note the following:

1. Before applying the oil, stimulate the zone or zones in question by gently massaging with a soft brush or cloth.
2. Now vigorously rub in three or four drops of the esoteric herbal oil.
3. Be careful not to get it into your eyes. Should this occur, rinse out with generous amount of water.
4. Never treat more than three zones at a sitting.
5. If complaints persist despite treatment, please consult your doctor or natural health practitioner.

Zone of fear

The first zone we describe here is for all who encounter insecurity, fears, anxiety and difficulty making decisions. It might also help you with knee problems.

The location is at the front side of the shoulder, left and right side of the body.

A positive change in attitude will often be noticed after a very short period of time.

The treatment color is yellow. Radiate the color for one to two

We have a special summer offer! All Esoteric soundscape music cassettes have a ten percent discount on the price.

This offer is valid until August 31, 2008. Please have a look at http://www.kleurenpuntuur.nl/eng/p_kleurklank_cassettes.html and see which might be helpful for you.

The dates for the Kirlianphoto diagnosis training are September 3 - 6 and November 26- 29, 2008 For more information: http://www.kleurenpuntuur.nl/eng/c_kirlianfotodiagnose.html
